NASAA,

It would be a pleasure to have a CE program for IAR's. As a licensed insurance agent for over 30 years and required to have CE to maintain licensing, I have benefitted from every class I ever attended. As a one person firm and having to do every task running a business, the on going CE and updates would be of tremendous value. I would encourage my state of NC to start a CE program as early as possible.

Respectfully,

Glen D. Barnes
